

AHAMED NAFRAS

077-7365064 | ahamednafrasbc@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Computer Engineering undergraduate passionate about full-stack software development, cloud computing, embedded systems, and AI. Experienced in developing scalable web applications, REST APIs, IoT systems, and machine learning solutions. Strong collaborator with leadership experience and a passion for solving real-world problems.

EDUCATION

Bachelor of Engineering University of Jaffna	2021 – Present Sri Lanka
Secondary Education Bandaranayake College	2011 – 2019 Gampaha

EXPERIENCE

Co-Founder Zyrace — zyrace.com	2025 – Present
– Developing full-stack web applications and custom software solutions for businesses – Designing RESTful APIs and backend services using modern web technologies – Deploying cloud-hosted applications and managing production environments – Collaborating with clients to gather requirements and deliver scalable software solutions – Managing Git-based development workflows and coordinating project delivery	
Assistant Chief Information Officer SWINTON	2023 – 2025 Dehiwala
– Implemented digital tools that improved internal communication workflows – Performed system diagnostics, troubleshooting and technical support – Collaborated with cross-functional teams to improve operational efficiency	
Trainee Intelligent Image Management Lanka (Pvt) Ltd	2019 Colombo
– Supported image and document processing – Assisted system operations and data handling – Ensured workflow accuracy and quality	

PROJECTS

Real-Time Forest Fire Monitoring System Embedded Systems + IoT + Full-Stack	2024
– Designed an IoT-based fire detection system using ATmega328, DHT22 and MQ-2 sensors – Integrated LoRa (SX1278/RFM95) for reliable long-range communication – Developed a cloud-enabled monitoring pipeline for real-time sensor data – Built a full-stack dashboard using React (Vite), Node.js and REST APIs for live visualization and alerts – Implemented geospatial monitoring features for mapping fire-prone locations	
Autonomous Line-Follower Robot with Color-Based Decision Making Robotics + Embedded Systems	2023
– Developed a line-following robot capable of detecting colored objects using sensor fusion techniques – Implemented decision logic to avoid red objects and transport green objects to designated endpoints – Integrated real-time control algorithms for navigation, obstacle avoidance, and object handling – Enhanced system behavior through rule-based logic and adaptive decision-making mechanisms	
E-Week Gaming Tournament — Organizing Head University of Jaffna	Nov 2023
– Led a team of 20+ to execute a university-wide gaming tournament – Managed logistics, sponsorships, PR, and technical setups	
Domestic Electrical Installation Guide ECSL	Oct 2024
– Developed structured technical guidance for safe installations	

RESEARCH

Undergraduate Researcher

2025 – Present

University of Jaffna

- Developing machine learning models to differentiate OCD and Eating Disorders using GWAS datasets
- Performing feature selection, statistical analysis and predictive modeling
- Identifying genetic correlations and candidate biomarkers using computational genomics
- Reviewing psychiatric genomics literature to improve model performance

LEADERSHIP & ENGAGEMENT

President

2022 – 2025

TUA – Thihariya Undergraduate Association

- * Led organizational initiatives and executive coordination

Chief Organizer

2022 – 2025

IESL Junior Inventor of the Year

- * Planned and executed large-scale programs and events

Founder / President

2023 – Present

YARL Gaming — University of Jaffna

- * Founded and managed university gaming community

Director of Professional Development

2022 – 2024

Rotaract Club, Faculty of Engineering

- * Organized workshops and career development initiatives

RELEVANT COURSEWORK

Data Structures & Algorithms
Object-Oriented Programming
Database Systems
Software Engineering
Computer Networks
Operating Systems

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, C++
Frontend: React, Flutter, HTML5, CSS3, Vite
Backend: Node.js, Spring Boot, Flask, Express.js, REST APIs
Databases: MySQL, Oracle
Cloud & DevOps: Azure, Git, GitHub
Tools: VS Code, IntelliJ IDEA, Postman
Operating Systems: Windows, Linux
Networking: TCP/IP, DNS

ADDITIONAL INFORMATION

Languages: English, Tamil, Sinhala

Interests: Cybersecurity, Gaming, Open-source
